

## Bug Finger Puppets

### Materials

- craft foam
- scissors
- pom poms
- pipe cleaners
- googly eyes
- hot glue gun

### Directions

- 1) Cut a piece of craft foam about 2 inches x 3 inches (this is the body of the bug and will go around your finger)\*
- 2) Wrap the craft foam around your child's finger and glue the two ends together to make a tube\*
- 3) Glue a pom pom to one end of the tube\*
- 4) Bend a pipe cleaner in half and glue it on the center of the pom pom for the bug's antennae\*
- 5) Glue on the bug's eyes\*
- 6) Cut out wings from the craft foam (experiment with different shapes and sizes for different bugs)
- 7) Glue on the wings\*
- 8) Cut 6 equal pieces of pipe cleaner for the bug's legs\*
- 9) Glue the legs to the bug's body\*

\*Adults should help young children with these steps
