

Paper Inchworm

Materials

- white and green construction paper
- red marker or crayon
- hole punch
- green pipe cleaner
- 2 googly eyes
- tape
- scissors

Directions

- 1) Cut 4 strips of green paper that are 3-4 inches wide and 6 inches long*
- 2) Tape an edge of one of the strips to the white paper. Gently push the other end of the strip back down to the white paper to create a bump. Tape the other end down (there should be a bump in the green strip).
- 3) Repeat this process 2 more times, each time overlapping the back end of the new strip with the front of the old strip. You will start to see your inchworm's body!
- 4) Tape the last strip into a ring.
- 5) Punch two holes on the ring and insert a half of a pipe cleaner in each hole.
- 6) Glue on the eyes and draw on a smile.
- 7) Tape the inchworm's head to its body.

*Adults should help young children with these steps
